SHRED. MINIMAL PACKAGING

Pioneering responsible packaging, SHRED. eliminated plastic from our goggle and helmet packaging in 2020, leading the industry towards more responsible practices. Our proactive stance continues with joining the Responsible Packaging Movement and switching to FSC-certified paper in 2023, setting new standards for our category.

SHRED. SHRED.

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/ Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity. SHRED.wide™ | Goggles designed and engineered to maximize your field of view. SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses. **SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

SIMPLIFY

If you're looking for the ultimate ski and snowboard goggle to DEFEAT FLAT LIGHT, offering the widest field of vision in the game with a sleek, almost frameless cylindrical lens style, SHRED. Simplify is your top choice. It features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED. wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. The 1-2-3 SHRED REPLACEMENT SYSTEM™ allows easy lens swapping. SHRED. Simplify is also OTG compatible, fitting over most prescription glasses.

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/ Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.

1-2-3 SHRED. REPLACEMENT SYSTEM™ | 3-step quick and easy lens replacement.

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED.'s SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED.'s ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO® | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK® | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TECH SPECS:

CONSTRUCTION | Hybrid | Integrated Slytech™ NoShock honeycomb | 16 vents
SAFETY STANDARDS | EN1077B (Europe snow) | ASTMF2040 (USA snow)
MATERIAL | PC | SHRED. Shield toughened ABS | Super Light EPS |
Slytech™ Shock Absorption
WEIGHT | 495 q [Size S]

TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED.'s ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH™ SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH™ SHOCK ABSORPTION | SHRED.'s patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating. **SL CHIN GUARD** | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

TECH SPECS:

BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with Casidion™—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

 $\textbf{CUSTOM FIT KIT} \mid \text{An additional set of thicker pads and ear pieces to fine tune the helmet's fit. }$

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

PROTECTION

SNOW | 2024-2025

NOSHOCK BACK PROTECTOR

If you continually push your limits and are looking for the highest level of protection and enhanced support, SHRED. NoShock Back Protector is just what you need. Their honeycomb-cone-structured SLYTECHTM SHOCK ABSORPTION provides the highest impact energy absorption performance (Level 2) and offers uncompromised comfort, flexibility, and ventilation. A 3-point belt also supports the lower back. Thanks to Shred's NoShock Back Protector, you can feel strong, confident, stoked, and in control.

FEATURES

SLYTECH™ SHOCK ABSORPTION | Our proprietary shock-absorbing material intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

SLYTECH™ NOSHOCK | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary Slytech™ Shock Absorption by reducing weight and promoting ventilation.

PROTECTOR'S LENGTH

SMALL: 49 cm / 19 in
MEDIUM: 57 cm / 22 ½ in
LARGE: 62 cm / 24 ½ in
CODE: BPNSNJ11L

X-LARGE: 70 cm / 27 ½ in | CODE: BPNSNJ11XL

SKI RACE PROTECTION

SNOW | 2024-2025

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH™ SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH™ SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH™ SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE™ | NOFRICTION PTFE™ technology blends PTFE into the SLYTECH™ SHIELD CARBON composite material. This serves as a lubricant, reducing friction and drag between the guard and gates to boost speed.
