**RACHEL POHL**  
Rachel Pohl is an artist, adventurer, humanitarian, and environmentalist. She believes in fiercely pursuing a life outdoors, which is seen by some as perilous and improbably optimistic.

**GIANNA ANDREWS**  
Gianna Andrews is a PNW native who is influenced strongly by her love for the outdoors in addition to the simplicity and peace that she experiences in nature.

**ADAM HAYNES**  
Adam Haynes uses the vivid geography of the Cascade Range and the character of its rural inhabitants. Haynes refreshes his creative coffee cup several times a year with solo art shows up and down the West Coast.

**ZACH CLANTON**  
Zach Clanton specializes in Alaskan backcountry and aerial photography. His inspiration is driven by his passion for nature, adventure and the thrill of the shot.

**SCOTT MCCURDY**  
Scott McCurdy's work is a way to develop and apply experience to something that he can share with others. Scott enjoys the ability to communicate with the viewer through powerful color, narrative, and strong imagery.

**CHRISTINA MCKEOWN**  
Christina McKeown is a watercolor and ink artist from Bend, Oregon. "I aspire to create art on my adventures and inspire those around me to preserve and appreciate our world. I love to be outside!"

**ERIN SMITH**  
Erin Smith is an adamant believer that truth is far stranger than fiction, and has combined her love of words with her love of art in these, "tell it how it really is," collages of a slice of life.

**MEGAN MARIE MYERS**  
Megan Marie Myers designs invite the community to follow four children on their extraordinary journey through a world with families at the center of each universe they encounter.

**NICOLE BISHOPP**  
Nicole Bishopp started as a freelance designer in the action sports world. She launched her product line in 2016 that features her artwork on various items like apparel, pendants and flip flops.

# KIDS EXPEDITION HOOD

360° OF THERMAL WARMTH // DUAL LAYER BALACLAVA

THERMAL WARMTH

The KIDS EXPEDITION HOOD is the warmest face mask in the BlackStrap line. With a 360° all over dual layer construction, a perforated breathable liner and 4-way stretch barrier, the Expedition Hood is unmatched. Utilizing the same Exo-Hinge design as our classic Hood Balaclava, the EXP-Hood provides maximum function, comfort & protection.

**DUAL LAYER THERMAL WARMTH**

# DUAL LAYER PROTECTION

360° OF THERMAL WARMTH PROTECTION FOR KIDS

THERMAL WARMTH

THE KIDS TUBE sets the industry standard for quality, comfort & functionality in the junior neck tube category. With dual layer construction, The-Tube provides thermal warmth and wind rated protection. The perforated liner allows for breathability and minimizes goggle fog. 4-way stretch allows The Tube to be worn in a number of different ways.

# KIDS THERMA TUBE

SOFT TOUCH // QUICK DRY // 4-WAY STRETCH

The KIDS THERMA-TUBE merges technical function and style based comfort with BlackStrap's custom midweight fabric composition. The inner face has a brushed finish for a soft layer while providing wind protection. 4-way stretch is milled in the USA and allows for the Therma-Tube to be worn in a number of different ways from the slopes to town.

# RANGE-CAP

PERFORMANCE BEANIE & HELMET LINER

The **RANGE CAP** sets the industry standard for performance and helmet compatibility for helmet liners. With a contoured design that mirrors The Hood, The Range Cap is lightweight and fits very streamlined under helmets. The fabric is Blackstrap's patented composition, that is lightweight, quick dry and antimicrobial.
